Wanting your business or community group to thrive?

Are frustrating communication patterns costing you time and effort?

Communicate with clarity and effectiveness, energizing yourself and your team.

- Get straight to the core of what matters, for yourself and your team
- Enable more engaging and inclusive meetings
- Build trust and psychological safety in your work environment
- Empower others to express honestly thus using the energy of the team to develop constructive outcomes, thereby reducing conflict and unresolved resentments.
- A proven model and practical template of how to hold crucial conversations.

The method we use has been used to increase efficiency within a number of the most successful corporates. It is validated by the latest Neuroscience. It is based on the work of Dr Marshall Rosenberg who developed Nonviolent Communication.

Do you want to live in a world in which people who might have something to help others only give it, if you give them money

Do you want to live in a world where people use money this way?

Our answer was no, so we are offering an alternative way of using money.

We don't charge for what we offer but we are happy to tell you what we would like to receive, so that we can continue to offer this training to others and ensure that what we do is sustainable.

We would like you to enjoy giving us an amount that you think is sustainable for you, because your life has been enriched by this training and you would like us to continue to offer this to others to enrich their lives.

In order to book on the system, you will be required to pay 25% of the suggested fee, so that is \$90.

However, if during the weekend training, you decide that you would like to give more, or less, this can all be accommodated. It is all a choice.

Part of the weekend will be a conversation about money and how this relates to the model of Nonviolent Communication.
